Mitavite Bulka Bags

New Bulka Bag on Farm Delivery Service Now Available!!

Bulka Bags provide a cost effective option for horse owners who have a number of horses to feed. Customers can save up to 40% on feed costs. In the past the use of Bulka Bags has often been limited by the inability of customers to safely transport Bulkas into their feed rooms.

Mitavite are now able to offer an on farm delivery service with Bulka Bags delivered on 'one trip pallets' using trucks with drop tail gates and pallet walkers.

The on farm delivery service is currently available in some areas of Victoria, NSW and South East Queensland. Other areas coming soon!!

MITAVITER

Mitavite Malaysian Sponsored Rider - Wan Ming

Growing up in a non-horsey country, I was lucky to start riding when I was 9. The riding school was about an hour away halfway up a windy mountain road and I am grateful that Mum would drive me there on weekends. During school holidays, I would work in exchange for lessons.

After a fairly dismal attempt at A Level exams and not getting good grades due to a lack of effort, I was gently nudged into doing my EFA / MEM Level 1 training by my coach and got my qualification as a Level 1 Coach in 2001. At the Selangor Turf Club Equestrian Centre where I have worked for more than ten years, I have been given the opportunity to ride various horses as well as compete. I have jumped up to 1.20m and done dressage up to Elementary level.

My competition horses are generally fed on Cool Performer and hay and chaff. Performa 3 Oil will be given to my older horses as it has anti-inflammatory properties as well as adding a bit more energy. 2 weeks before a competition, we increase the quantity of Performa 3 Oil as a loading period. I have also mixed Cool Performer with Formula 3. I find that Formula 3 gives the horses a bit more pep but being oat free, it does not heat up the horses too much.

In 2004, I spent 8 months in the UK, working as a groom for a carriage driver / farrier, David Gulley and got my BDS Preliminary Competency Driving certificate. I had a great time and competed in carriage driving competitions, which are similar to the eventing format.

I work with a lot of ex racehorses and run an Ex Racehorse Retraining Programme. In this programme, the horses are fed mainly hay and Cool Performer. I find that the Cool Performer keeps the weight on the horses but does not fizz them up, which is the last thing we need while trying to retrain a racehorse. The great thing about this diet is that you do not have to feed large quantities of Cool Performer to get a result. Some horses are also given Performa 3 Oil if their coats need an extra boost.

Last year, I had the chance to compete at the Horse of the Year Show in New Zealand. Catherine Cameron, who is a Mitavite rider in NZ, found me a horse to ride and coached me through the event. I also had a lesson with Jody Hartstone on her Donnerwind. Jody is also a Mitavite rider in NZ and is one of the best dressage riders in NZ. Throughout my time at the Selangor Turf Club and while being sponsored by Mitavite, I have had clinics with Clayton Fredericks, Vicky Roycroft, and many other international riders. It has been a dream come true.

The goal for this year is to continue training my ex-racehorse, Stanton to Novice / Elementary level dressage. He is a lovely chestnut horse by Choisir and has shown great potential. With some luck, I may find another showjumper or Stanton may just have to do both!

“ONE OF MY BEST MOMENTS WAS WINNING THE MITAVITE 6 BAR ON MY LITTLE SPOTTED HORSE IN 2011”

MITAVITER

Mitavite Promita

Low Starch Pasture Balancer

Promita is a valuable nutritional tool with a multitude of applications for horse owners.

High quality protein is essential for development, repair and maintenance of all body tissues and Promita's protein and amino acid rich formulation can be used to support muscling and topline in show horses, aid with convalescing horses without providing too much energy.

Many pony owners choose Promita to keep their charges in top shape without worrying about the weight problem.

Here are just a few uses for Promita:

- Horses that need more topline and muscle mass
- Horses that are good doers but still need nutritional support
- Boxed horses recovering from injury or surgery
- Horses in a sale prep
- Weanlings & Yearlings that would benefit from high quality nutrition without too much starch
- Can be added to any ration to boost nutritional values at times of rapid growth of when pastures are poor.
- To provide support for pasture based diets.
